DEVONSTONE collection

Meet Sarah Kay, lover of sunshine, springtime and floppy straw hats. A country girl at heart, she'll choose gardening gloves over sparkly accessories any day of the week. Her favourite jeans are well worn-in, and her ideal footwear is none at all. Friend of animals, grower of flowers and fruits, her place of preference is anywhere outdoors – but especially in her garden.

The timeless imagery of Sarah Kay was created by Valentine Publishing artist Vivien Kubbos and introduced in Australia in the early 1970's. Today Sarah Kay is timeless and classic, with a message that may be even more relevant to today's girls than when it was launched over 30 years ago. Her world is anchored in the garden and of the earth.
