For the front panel, sew the

For the back panel, sew a red,
orange and pink piece together:

Drawstring Casing:

From orange fabric, cut one 2" x 24 1/2". Turn under a 1/4" hem on all four edges of this piece and press.

Position this on top of the pink fabric around the top of the sack, with the hemmed ends butting up together at the centre front. Pin in place.

Sew around, close to the hemmed edges on the long sides, to attach to the sack.

Thread a length of cord through the casing.

Cut two small circles from the template provided, from pink fabric.

Use an awl to pierce a hole in the centre of the circles, large enough to thread your cord through.

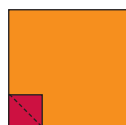

Thread onto your cord and tie a knot in the ends of the cord, outside the fabric circle.

Do a small running stitch around the centre hold and through the cord, to hold in place.

Fill sack with goodies and tie cord in a bow!

*Templates and Ornie instructions on the back of this page.

From the pink fabric, cut one 4 1/2" x 1 6 1/2".
From the red and orange fabric, cut two 4 1/2" x 1 6 1/2".

SANTA SACK

Christmas Sack

& ORNIES

ORNIES (ORNAMENTS)

Stitch a circle stitchery design using 2 or 3 strands of 655 red Cosmo embroidery thread.

Trace the Ornies Stitchery Template onto thin card and cut out.

Use the card circle to gather the fabric over.

Trim the stitchery to about 1/2" larger than the card circle. Sew a gathering stitch just in from the raw edge around the circle.

Place the card behind and pull the thread ends, to gather around the card. Tie off.

Press with the iron. Remove card and press again.

Trace and cut two coloured fabric circles, using the larger circle shape.

Also cut two iron-on pellon circles and adhere to the back of the fabric circles.

Cut a length of ribbon and fold in half.

Place the raw ends at the edge of one of the circles.

Place the two circles right sides together.

Sew around the edge with a 1/4" seam, catching the ribbon within.

Clip in toward the stitching, around the edge of the circle.

On one side, carefully snip into the centre to open enough to turn right way out.

Turn through. Press.

With the ribbon loop at the top, position the stitchery circle, centred, on the side with the hole, to cover it. Sew the stitchery in place.

You can use the stitchery designs to make ornaments of different shapes too... square, hexagon...
